

Dear Lama Gidpin,

What a joy you were last night! Your
glorious pictures took me back to my own
all too limited - but lovely experiences
of the Navajo - Canyon de Chelly etc
and the pleasure my daughter Diana
King & my grandchildren had visiting
you last Easter. Your voice was

so strong & clear & your narration
so simple & appropriate - both

Emily Barnes with whom I was sitting
& myself were extremely moved.

Now this brings me to an as yet un-
fulfilled intention of which I spoke last
spring - and that is to do a portrait-head
in honor of you self. I was not able to
do anything of the kind last year - but
now that I am settled into my studio I
want to make it my next project. I am
finishing a portrait-commission right
now & when that is cast I will, if I may,
call you - see what we can set up. With

Gratitude
for last year
Una
