Dear Miss Gilpin:

Myron uses mostly our VTE Pan, but I have in mind a beautiful leaf picture of yours published in the 1942 U.S. Camera Annual, and so I had sent to you also some of our ultra film, slower but finer-grain.

I'm sorry, but we can't help you on the 620. Not at the moment, anyway. If my spooler is willing to put his life on the line against scratches, I'll send you some, but don't hold your breath.

Sincerely,

H. Holden
