Canada

Dear Miss Gilpin

Sept. 15 1975

I am writing to report
how much I want to see you
on the "Today Show" Sept 5th

We were leaving for Canada that morning
on our annual fishing trip.

The car was out front and we were
basically packing it when friends who
had seen your book at our home,
began to call us on the telephone to
turn on our TV, station #3.

We turned it on and there you
were!

We were delighted with your program
and with seeing you. What peace you
have! That ~~thing~~ thing all up and down
my spine.

We missed the first part of the program
and that grieved us but we loved
the part we saw.

Your pictures were beautiful and
your subject matter made us
long for the south west.

We wonder what you are doing now
and are sure you are not idle.

Our contact with you was most
stimulating for us and was the
high spot of our stay in Santa Fe.

Thank you again, Miss Gilpin
for your efforts in my behalf with Dr.
Brooks.

We liked him so much and he
speedily healed up my face.

Our druggist ordered a supply of the
cream sun screens, "Maxifil" that Dr.
Brooks ordered and our dermatologist
now recommends it in place of
the former "A Fil".

I was slow getting the newspaper
clippings to Laura because I
misplaced them but I found
them among my effects when I
got out my travel bag.

Fishing has been poor due to low
water but we had a two day rain
and last night Fred brought in a
12+ lb salmon. The men are out
now and will fish until dark.

Very best wishes from us both.

Amest Fred Robinson
