Miss Laura Gilpin
409 Camino del Monte Sol
Santa Fe, New Mexico 87501

Dear Laura:

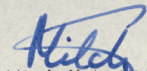

I am terribly sorry that you have been under the weather. I had thought from our conversation earlier in the spring that you were completely on the mend and ready to go for the centennial. Do take care and not overdo it.

The four pictures which we had selected were on top of the pictures in the box which I sent to you. They were numbered ACM 1, 2, 3, 4, as I explained in my letter of April 17. I cannot imagine what has happened unless you mislaid one, because we have no stray prints here. In any event, please proceed with the three that you have identified, and then perhaps we can go back to the proofs which you had supplied us and see if we can determine what the other picture was. Ron does not think that the picture in question is Santa Elena Canyon, as we have that from another source.

As to size, we would have them 16 x 20, but if there is a question as to whether the negative will go to that size and be a satisfactory print, this decision remains with you, of course.

Fond greetings to you, in which Sal joins. I still don't see how I can get to Santa Fe and visit Dr. Bob, much as my back would enjoy it.

Yours,

Mitchell A. Wilder
Director
