PRINCETON, N.J. 08540

August 15, 1975

Dear Laura Gilpin:

Thank you again for letting
Nina + me visit you. Being around
you for a little while is a tremen-
dous inspiration!

I was serious when I said that
I would want to learn platinum
printing from you. If it is not a
big burden on you to have some-
body watch, I would be very grate-
ful for the opportunity!

No matter when I can be in
Santa Fe at a day's notice. If, for
one reason or another, you have
difficulties obtaining the chemicals,
I certainly could try to get them
in New York. Please don't hesitate
to phone me collect (609-924 6639)

In return for your kindness,
I can always offer my talents as
a pilot. Renting a plane shouldn't
be hard. How is the alteration next
door? God, you are so enterprising!
A true model for a young person.

With kind regards,

Herta
