Dearest Laura:

My goodness, how I enjoyed having you and Margaret here, even though it was all too brief a time. I look forward to having **you** again in the near and frequent future. I do hope that you were not too too tired by the time you got home and that the trip was a good one. I felt that it would be because of the wonderful vibrations of the day. Kindly accept my thanks for being you and for sharing that with me and with others.

I am enclosing Val Coopers article on the gas plant that resulted from her visit with us last Saturday. At least she tried and that shows a lot here in Farmington.

I tried to call Dr. Wauneka today, but the Council was meeting and I thought perhaps it would be better not to intrude on that, so I will try again in a few days. I thought I would ask for an appointment and try to have more knowledge of the area and the specific availability of services. Needless to say, I am wonderfully excited about this and thank you again.

I hope to see you soon.

Love,
Ray.
