Dear La-La,

A wonderful package from you arrived a day ago. The photograph in the cave at Chichen is spectacular! What a find. I hope to get back to the old stand and see it sometime. Those pots are most unusual votive offerings for the Mayan area. I hope that no one is allowed to disturb the place. You had yourself a lighting problem there, didn't you. If flas only did not obey the laws of physics and fade so fast that you can't help over-exposing the immediate foreground. You certainly got the least of that in the depth of the shot you had to light.

Enclosed is my check for the "Temples" to be given to my little editor who returns from Yucatan on Sunday.

It was great to have you here for a few days and we hope ~~that~~ you will repeat the performance. The guest room is yours when ever you can use it.

Love from both of us

Brown
