Dear Laura;

Of course I went to your show and should have written but for all the little things. The stars are not my worst enemy- it is the crowd. I loved your old portraits in platinum and your courage if you can still do that and make your own. Also the much photographed WHITE HOUSE. If I were a collector I would assemble all that have been done of that and yours would stand up in great style. I feel that you are not really old yet, but I am.

Love,
