Dear Laura,

Students and faculty alike are still stopping me as we pass to remark how wonderful you are and what an inspiration you are. They especially felt that you gave them real wisdom in the art of working with people and getting to really have trust for fine understanding and real photography.

We all bless you for the sacrifice you made in time and energy to be with us. I wish this paltry check had the decimal another place or two to the right! At any rate let it do something special for you and be reminded that some students will carry your words and inspiration for the rest of their lives. And that includes me!

Cordially,

Bill
