Miss Doris Bry
11 East 73rd Street
New York, New York 10021

Dear Doris;

Thank you for your letter and enclosed checks, and I am looking forward to seeing you again before long. I am so glad you saw Bill Clift and his work. I think he is one of our coming photographers. I had not thought of a possible joint thing on Shiprock, and this is something to think about, and I am sure his will be very different from mine. We must talk it over when you come.

At long last the work-rooms are through, along with the finishing in my house completed also, and I hope to settle in and get some work turned out, though there seem to be constant interruptions.

I was up at Georgia's the other day at Abiquiu because David Bell wanted a new photograph for the Viking book. I will be processing these soon, and I hope I have come through with something satisfactory. She came down from the ranch and we worked in her studio and stayed for lunch and had a really enjoyable time. It seemed to me that she saw much better than last year and if there is such an improvement, I hope it continues. I may be going up again as soon as I have some prints for her approval.

I do want you to meet Dr. Shultz and we can do some possible discussions about the de Chelly book. I am committed to the final decision by the School, though I asked for and was given the right to choose the printer. Dr. Shultz is in charge of publications. I am putting you down on my calendar for July 19,
