Mr. John Humphrey
Director
San Francisco Museum of Art
San Francisco, California

Dear Mr. Humphrey;

It was good indeed to see you again at Helen Johnston's little lunch party that day, and to have a good talk on photography. After you had left, Margery Mann and I found that that day was her birthday. We wished her many happy returns for you as well as ourselves. Now that I am home, I am picking up odd notes as I find them that I had written on several pieces of paper and found one to myself saying "promised to send print of the "Storm" to Mr. John Humphrey". I know the picture you mean, but I made no note of what size you wanted. Did you want a 16"x20", such as the one that was in my show, or a smaller one? I have a 16"x20" here, which I can send on to you if this is what you wish. Is this a purchase for the Museum, or is it for you personally? I will not mail it until I hear from you.

I certainly had a wonderful week in San Francisco, and will remember it for a long time. Now I am back and finally moved into my new quarters and everything is moving along. Should you come this way anytime, please let me know so that I will surely be here. It would be a great pleasure to welcome you here. With best wishes,

Very truly yours,

Laura Gilpin
