Dear Mr. Jacobs;

Thankyou very much for your enclosure on the T.V. course, "The American Mosaic". You took me somewhat by surprise on the telephone and I want to know more of just what it is you want me to do. In reading over this paper, I notice under the second week, #6 is the statement "to teach Aztec and Pueblo cultures, commenting particularly on family life," etc. To whom are you referring with the title Aztec? I am interested to know the full implication of this.

Please let me hear further from you, not only on this, but on whatever statements from me wanted regarding the Navaho people. Thanking you,

Very truly yours,
