Mr. Abedon Lopez
Personnel Representative
Los Alamos Scientific Laboratory
P.O.B. 1663
Los Alamos, New Mexico 87544

Dear Mr. Lopez;

My reason for not answering your letter earlier was that I wanted to talk to Dr. Richard Rudisill here at the Museum of New Mexico about Robert James Brewer, as Dr. Rudisill knows him very well. I have seen quite a little of the work of this young man, and he is very sincere, hard working and proceeding very well. As to his full training, I am somewhat in ignorance, but feel sure that any assignment that he is given, he will undertake and acquire any specific knowledge that he might lack at the moment. As to his initiative and character, I feel sure of these, and believe he would work into a new job as he should be a satisfactory technician.

As he first started and studied in the Chicago area, I am not able to complete his training record, but I am sure that Dr. Rudisill also would recommend him for your position. Thank-you very much for calling on me.

Very truly yours,

Laura Gilpin
