Dear Carol;

Thank you very much for your nice letter. It was nice, indeed, to see both you and Alice while you were here. My days are still very hectic, the new work rooms will be finished in a few days, and I will be moving in. Since we talked anything about my coming over for a lecture, many things have come in that I am not committed to. I must get started with the portfolio for within by February 1st, and it will take at least 10 weeks to complete that job. Then I must get to the Canyon in April when the leaves are beginning to come out. Last year, when I was over at that time there was so much water running in the Canyon, it was impossible to get there. So the month of April is a large question mark for me, though it would probably be the latter part of the month that I would be there. So it would look as though this fall will be the soonest I can come.

I am sure that we can work out all the details later, but as I see the next six months, I will be very hard at work right here. My best to Alice and best wishes to you.

Sincerely,

Laura Gilpin
