ASSISI

Basilica Patriarcale S. Maria degli Angeli
A. della Robbia (1490) - Altare centrale della
nuova Cripta (Prof. Prosperi)

Here is a picture of the most beautiful altar I ever saw. Diana & I are losing our minds over all that we are experiencing & only wish the people we love & who would appreciate it could share the beauties with us. We speak of you often & hope the house is finished!! This will be my only missive till I talk with you in the first week of Sept. Meanwhile very much love Una
