Dear Laura,

The two prints ordered earlier have NOT been received.

However since you say they were shipped earlier..I am concerned that they might have been lost in shipment. How were they sent and were they insured? In the event however they can't be found..I want the gallery rather than you to stand this loss. You were so nice to take care of it. So am enclosing check for the three prints ..adding on the new one..the 8 by 10 size of the Indian Family sitting in Covered Wagon (page 21 of the Enduring Navajo)..allowing for gallery commission and \$10.00 for shipping. He also wants it signed twice..once on front and again inside just in case something might happen to the outside mat. the missing one.

Would appreciate any information you can find on the missing ones.

All best,

He Len
