

Pride and joy, which I understand were a Father's work.

Such a host of pleasant memories of your spot in Santa Fe - South West.

Thank you for receiving us and sharing them.

May bright days continue

Dear Laura Gilpin

What a fresh, exciting person! A face expressing the character of real living and photographs that add a stamp to that living.

What a genuine joy it was
to see and talk with you
and your household:
the young lady, so thoughtful, and
her husband and child
the delightful lady of the two-
guinea and pleasant motor
expeditions - and
the rambling adobe home,
warm with living and those
wonderful cabinet makers
