Miss Laura Gilpin  
409 Camino Del Monte Sol  
Santa Fe, New Mexico 87501

Dear Miss Gilpin:

I'm writing with regard to a newspaper clipping describing your life of photography and your work on your latest book on Canion de Chelly. I am very interested in the possibility of working under you on this project or any other project you have upcoming on the Southwest or any other subject. I am very fascinated in, and in learning more about, the peoples and environments of the Southwest.

As you can see in the enclosed résumé, I have a strong background in the areas of photography, motion picture, and television. It greatly interests me to be able to document peoples in their native cultures and environments. Relocation would be no problem after the end of August when I will complete an Master of Science degree in Radio-Television-Film at North Texas State University.

Please do not hesitate to contact me if more information is needed.

Sincerely,

  
Lon C. Berry
