Dear Miss Gilpin,

I work here at the Center and have had the immense pleasure of being in the same room with your photographs for the last month. I have enjoyed them so much, I wanted to tell you about how wonderful it is to be able to watch your images dance about on the wall.

I am sure through the years you have received many complimentary comments about your work from persons whose judgement you treasure. But, I shall add my respectful comments to those of others in telling you how wonderful your photographs are, and the subtle yet strong impact they have had on me as a photographer.

Best wishes to you for the holidays and the coming year.

With respect and admiration, I am,

Sincerely yours,

Minnette Burges
