Dear Miss Fleisher;

Thankyou very much for your letter. I would be pleased, indeed, for you to have some prints of mine, but it is going to be some little time before I have prints available, owing to several big projects that I am now engaged on. I need the necessary time to prepare such prints, but I will let you know and correspond with you further.

I have been asked many things in my life, but I have never been asked where a Georgia O'Keeffe painting is hiding! The best suggestion I can give is to write directly to Georgia, because I know she has many things in her studio and store-room. Some of which were brought forth for the publication of her book, which I am sure you must have seen. Thank you again for your note. With best wishes, I am,

Very truly yours,

Laura Gilpin
