Gentlemen;

I would like to inform you that I am sure that both of the prints listed in your catalogue are on the Belgian Gavelux paper (not platinum). I never made a Bromoil print, because I did not like the surface of it. If these two prints (#1065, #1066) were part of the Cranbrook Collection, I know they were all on the Gavelux paper. You might perhaps need this information if you should sell these. Thanking you, I am,

Very truly yours,

Laura Gilpin
