Mr. Harold Jones , Director
Center for Creative Photography
843 E. University Boulevard
Tucson, Arizona 85719

Dear Harold;

Of course I will unmount the few platinum prints that are mounted for you and President Schaefer. We will have everything ready by his arrival on the 28th. I never dry-mount a platinum print and we mount everything just the way you do. But you will find some prints that long ago were mounted with a little LePage's glue. Rather than try to remove this, I think I will leave it to you because I have already signed everything and the only way I know to get rid of it is to soak the print, unless you have some special way to remove it. The prints are all signed on the back, and dated and as much information as I have will be on the envelope containing each print. It will be nice to have you come through Santa Fe again. I expect to be here with the exception of a quick trip to Colorado Springs on the 11th of July and again to Denver in September. Otherwise, I will be very much at work right here. Thank you for your letter.

Very sincerely yours,

Laura Gilpin
