Dr. John Schaefer
843 East University Boulevard
Tucson, Arizona

Dear Dr. Schaefer;

Two or three weeks ago, Margaret Cohn, widow of Alfred Cohn, stopped by here on her way to Boulder. Alfred and I were classmates at the Clarence White School and I saw him off and on during his life. Margaret is his second wife and I believe he had two children by his first marriage. Margaret wants very much to see you when you have time for her. She has a number of things you might be interested in, such as some copies of CAMERA WORK, books, etc., and possibly a few of Alfred's early platnums. She is very shy and probably very hesitant about encroaching on your time, but I do hope you can see her. I think I remember that you spoke of Alfred and a school of photography in Tucson some years ago. I do not know if Margaret has yet returned to Tucson, but I think she will try to get in touch with you when she does and I hope you will find some material that interests you.

I think with pleasure of the nice visit when you were here and I hope you will be coming by again before too long. Harold Jones has informed me that you are planning a small exhibition of my platnums in November. This might be a good time of year for me to come to see the Center. With best wishes.

Sincerely

Laura Gilpin
