Mr. Tom Wolff
P.O.B. 1948
Aspen, Colorado 81611

Dear Mr. Wolff;

The print came back to me Saturday in excellent condition. If you had gently put your finger on the two areas that you referred to, you would have found that they were not scratches on the print itself. There are, however, two very minute scratches on my negative which have to be spotted after a print is made. There is also a telephone line across the upper right corner which is spotted out as much as possible. There is a new substance on the market now, which when added to the spotting solution, will match the gloss or semi-gloss of the print. As it will be some time before I can more prints, due to an excessive amount of work I have on hand, I am returning to you here-with your amount of \$150.00. Perhaps you will be in Santa Fe again and can stop by the studio at that time.

Very truly yours,

Laura Gilpin
