Dear Mr. Wolff;

Thankyou very much for your recent letter to Miss Gilpin about representing her in your venture including photographs and prints. She has asked me to send her thanks, but regrets at this time not being able to commit herself. She has several major projects to complete before promising any new galleries her work. Although she would very much like to be included, at this time she has much work to catch up on and your request would mean quite a lot of work in the dark room.

Hopefully, by the time you receive this your print of Picuris Church will have arrived. The other print of the Cove Area has not yet been mounted or spotted as we have gotten very behind here this summer. I will send it to you as soon as possible. Thankyou for your interest and we hope to see you here again.

Sincerely,

Sina Brush-Morales
