Mr. Jim Woodson  
157 2nd Avenue "B"  
Ottawa, Canada

Dear Mr. Woodson;

Thank you very much for the prints you sent. They are certainly the most satisfactory of many things that have been done since I moved into my new quarters here. I am just about to settle in to make platinum prints and just as soon as I have certain information about obtaining chemicals, I will send you the simple directions for the process. Please let me know if you come to New Mexico and give me a little notice as to what time of the summer this might be. I will save some time to discuss the platinum with you.

Very truly yours,

Laura Gilpin
