Dear Ms. Gilpin:

As you may recall, in December of 1975 we had some correspondence relating to the possibility of having the pleasure and privilege of being the repository for some of your photographic prints.

In effect, this is just a note to keep in touch and to say that we are still very much interested in this possibility. Of course we would be more than willing to pay for same.

I do also want to emphasize our continued interest in eventually becoming the repository for some of the literary materials surrounding your career; namely, show catalogs, exhibit publicity, correspondence and other material that would not have a monetary value but would have a very significant historical value to anyone interested in your incredibly talented and productive career.

Thank you for your past interest in our program. Looking forward to keeping in touch in the future, I am,

Sincerely,

A handwritten signature in cursive script that reads "Gene Gressley".
