Dear Ms. Brush-Morales:

I received your letter concerning the Laura Gilpin photographs from our exhibition which Dr. Monsen wished to purchase and which we delivered to him. I am very concerned about this situation and am amazed that this matter has been going on for this long. It is not clear exactly what we can do to assist you, however, I have sent a copy of your letter to Dr. Monsen with a letter of my own indicating that I hoped you both could find some equitable resolution as soon as possible. I hope it helps to get results; perhaps just the extra weight of the situation being public knowledge will assist in finishing this business.

Ms. Gilpin did give us permission to deliver the works to Monsen, and we had no indication at all that Dr. Monsen was already involved in a long, indecisive series of purchases from you. I hope that through our joint efforts some resolution can now occur.

Sincerely,

Bruce Guenther
Acting Director
