Santa Fe, New Mexico 87501

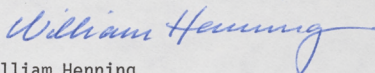

Dear Miss Gilpin:

I have been studying with keen interest and a certain awe the forty-eight photographic prints that you recently sent to the Fine Arts Center by way of our mutual friend, Myron Wood.

Not only are the photos splendid examples of your particular eye and talent but also they are records of extraordinary historic importance to our institution. They will be a tremendously valuable addition to our archives. I do not doubt that should we ever publish a history on the Fine Arts Center or if we should ever prepare an exhibition on the same topic - we would certainly want to feature many of your fine works.

Your thoughtfulness in giving these pictures to the Center is genuinely appreciated. I know I speak for our Director, Arne Hansen, as well as many other of your dear friends on our staff and in this community when I offer our warmest thanks.

Sincerely,

William Henning
Curator of Fine Arts Collections
