

January 4, 1917

Dear Miss Selvin,

The photo I had ordered from you A Chance Meeting arrived in the mail yesterday.

Your photograph is lovely but I am disappointed to say that the picture arrived with several very distinct spots on it — caused perhaps by a splash of water or chemicals.

I do not feel this is the type of work of yours you would want people to receive and wonder what you would like me to do ~~with~~ about this photo.

I am very sorry to cause a problem but feel you would want to know of this and will let me know what

I showed do with the
stained print.

Sincerely
Mrs Robert Raynard
