Dear Ms. Gilpin:

We are attempting to establish conservation files on every major photographer whose work is represented in the various museum collections. Toward that end, we are requesting that you please fill in the enclosed questionnaire so that we can keep a record of the materials and techniques used by you in your work. Such a record can, in the future, help a conservator to make proper and ethical decisions when treating your work. Under "Further Comments," please feel free to enter any additional information that you feel is not adequately covered in the preceding sections.

If you have any extra copies of show notices or catalogs that we can add to our files, please include those also.

I am sure you realize the importance of this project to the conservation of photographs; we are, therefore, grateful for your time and consideration.

Sincerely,

Jose Orraca
Associate Professor
The Conservation of Photographs
