Dear Ms. Gilpin:

It is my understanding that the Center has come up with one too many of your platinum prints; therefore, I am returning separately "Timber-line, Glen Cove, Pike's Peak, 1924." This makes our latest purchase a total of 31 prints, per your invoice. Everyone has been appreciating this recent acquisition of ours and looks forward to the exhibition in November. I am delighted that you will be able to come to Tucson at that time and hope you will consent to talk to some students or even give a public lecture.

If there is any assistance I might be able to provide, please let me know.

Yours truly,

Terence R. Pitts
