Dear Ms. Gilpin:

San Ildefonso Pueblo is presently in the process of apply for a mini grant through the New Mexico Arts Commission in Santa Fe for our newly completed Community Center. In the application, we have included a proposal to have black & white photographs of San Ildefonso enlarged for future museum exhibition use.

We are asking you, Ms. Gilpin, if it is possible, from your collection, to obtain photographs in order to enlarge. Either through a donation or purchasing by the Pueblo. Mr. McNown, the architect from Pojoaque, has informed us that you are willing to donate some of your collections to our Museum or Archives within the Pueblo in the near future. Am I correct?

We would sincerely appreciate your support and contribution to the Pueblo people of San Ildefonso, by having to donate some of your collection. Your letter of support would surely have a great impact on the Arts Commission for our present application for the grant.

Your immediate response to our letter would be appreciated.

Sincerely,

Gary Roybal
Museum Technician
