Miss Laura Gilpin
409 Camino del Monte Sol
Santa Fe, New Mexico 87501

Dear Laura:

I was delighted to hear from you and cannot tell you how pleased I am to know you will be coming our way this summer. Do plan to spend a day or two with us as there is much to talk about and even more to see.

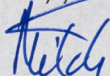

By the time you will be here in June, the new building will be virtually complete. There will, undoubtedly, be more work to be done in the library since it is a paneled interior and the theater will not be in its final stage, but the working areas should be in good shape and we will be moved in to some of the office areas.

The real point I would like to make is that if you could come by this would permit you to have a firsthand view of the facilities which we are setting up and particularly the way we are handling photographs. I think that it is impressive and I hope that others will approve. Do let me know how your schedule works out.

If Lewis Allen is in Santa Fe do suggest that he stop by Fort Worth again and have a look at the building as it is on its way to completion. When he was here before there was very little to show him.

Looking forward to seeing Margaret Schoonover in Fort Worth. Sally joins in fond greetings to you. Come soon.

Sincerely yours,

Mitchell A. Wilder
Director
