New York, N.Y.

Dear Laura Gilpin,

You were so very kind not to refuse my interview that day. Though I feel fate was on my side, I know I never would have imposed such a taping session on you had I received your letter in New York. I do hope that I did not inadvertently place you in a difficult position, and if so, that you will forgive my enthusiasm. For me it was a lovely afternoon and meeting with you.

Once I have transcribed and edited our talk I will send you a copy for your files and one for you to correct and change as you see fit. Though there may be a few additional questions, I do feel that you have been interviewed thoroughly enough by others - further requests will be minimal.

In thanks for the hours shared and for the inspiration of your life and work in general,

I wish you abundant energy
and health for the work ahead of you,

Alicia Wille 4874
