Santa Fe, New Mexico 87501

Dear Ms. Gilpin:

I have been authorized by the director and acquisitions committee chairman of Texas Tech University's Museum to investigate the possibility and procedure of obtaining a portfolio of your excellent work for our collection.

I believe we would be most interested in about thirty photos that would represent the great scope of your work. A couple of our museum representatives would work with you on the selection of works. Perhaps some early platinum prints should be included in the group.

Please advise me regarding the procedure we should follow with you and some indication of cost.

Thank you for your consideration in this matter.

Sincerely,

James Broderick
