Dear Laura,

It was a pleasant surprise to read Dorothy Beldens article on you last weekend in the Wichita Eagle and Beacon. I hope she sent you a copy. The article set me to thinking that although I have seen quite a few of your works in various publications and in the work you have sent to us, I have not yet invested in one of your delightful books.

I took out yesterday to find them and was shocked to find out that not a single bookstore in town was carrying them. I also checked the public library and the Wichita State library, but also bombed out. I guess it is best to go straight to the source; therefore, would you sent me a list of titles/prices and etc so I can have you send one to me?

Best of wishes for good health and pleasure,

Dan Close
