Ms. Laura Gilpin
409 Camino Del Monte Sol
Santa Fe, New Mexico

Dear Ms. Gilpin:

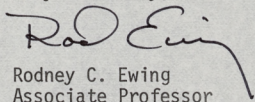

Dr. Arthur Montgomery has donated the Harding Pegmatite Mine to the University of New Mexico to be preserved as an outdoor geologic laboratory. To this end, we are writing a pamphlet which will describe the property and provide students and visitors with a walking tour of the property. The pamphlets will be provided without charge.

Included in the materials that Dr. Montgomery has donated to the University were a number of photographs that you had taken when the mine was in operation in 1953. I am writing to ask your permission to use four of these photographs in the pamphlet. You would, of course, receive credit for each photograph.

I would also like to extend an invitation to you to visit the mine. I would be glad to give you a personal tour, and show you what we plan to do with the locality.

I hope that you will agree to the use of the photographs.

Very sincerely,

Rodney C. Ewing
Associate Professor
