Dear Miss Gilpin:

I am writing to inquire if you would be willing to send us a selection of your photographs for purchase consideration. We would like very much to include your work in the Museum's photography collection.

If prints are available for our consideration, we would be grateful if you could give us information about subject matter and price range.

I read with interest David Vestal's article about you photographic activities which appeared in Popular Photography.

We look forward to your reply. With good wishes.

Sincerely,

Stephen B. Jareckie
