

11/26/78

Dear Ms. Gilpin,

Enclosed is a photograph I took of you. Perhaps you do not remember me I came to see you on a day your gallery was closed, July 4, 1978; I was passing through Santa Fe and you were gracious enough to show me your gallery - I had been a physician with the Indian Health Service in Chile and had long admired your work we discussed your hip problems and your plans for future trips to the reservation.

I was quite pleased with this portrait of you and thought you might like a copy. I have the inter-negative and will be happy to send it to you if you have further use for the

picture. A friend of mine suggested that the photograph might be suitable for the jacket of your new book on Canyon de Chelly — which I am anxiously awaiting.

In any event, I trust you will enjoy this photograph of you.

Sincerely,

Allan R. Liebgott, M.D.
