Very dear Laura:

July 24-78

That was so good of
you to call me about the WIRPATE-RESENCE of
MITCH! I'll call him to-morrow.

I have almost called you several times
but I didn't want the phone-ring^{to} put
you under pressure—via the wheel chair.

I think there is a gadget, that enables
one to carry a connected phone line
hook-up—maybe I'm wrong? But I've
heard about it? That might help?

So glad MITCH is solving your dilemmas.
So good luck in every thing—and
always our love to you—Barbara
