September 5, 1978

Dear SAR Member:

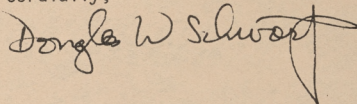

Enclosed you will find the new calendar of membership events. The first three lectures will be held at Greer Garson Theater in Santa Fe starting at 8:30 P.M. Jane Goodall's successful lecture two years ago prompted many requests for another visit so we have asked her to return and report on her most recent work. Her lecture will be held at the Sweeney Center in Santa Fe, a facility which happily is able to seat all our members.

Tours of the School's new Indian Arts Research Center will be offered to members by reservation each Friday afternoon beginning October 20. Members with a guest card are welcome to use it; however, we do not have the capacity to admit other guests. To arrange to join a tour, please call Ms. Barbara Stanislawski at the School at 505 - 982-3584.

Also enclosed is an application/envelope for your use in possibly giving a membership in the School to a friend. We presently have several hundred out-of-town members who, while unable to attend most lectures, enjoy keeping in touch with our publications and research activities. If you know someone who might like to be associated with the School, we invite you to send him or her a guest membership.

Exploration 1978 will be mailed during the latter part of September, and I am sure you will find it an interesting issue. I look forward to seeing you at some of our membership events during the coming year.

Cordially,

DWS:jb
