

Sept. 13, 1979

Mrs. Arthur Cowen Jr.
480 Park Ave.
New York, N.Y. 10022

Dear Mrs. Cowen:

Laura has asked me to write to you and thank you for your letter. She enjoyed your visit very much.

It is correct that you should use 85B color connection filter for clouds with black and white film. However, this is for western skies, and may not be the case in eastern light. Laura suggests that you try a sample roll of film to be sure.

Laura is looking forward to visiting with you again.

Sincerely,

Mary Sue Walsh
secretary to Ms. Gilpin
