

Laura —

A post script which I thought about after I packaged your copy — On the biography — or bibliography —

1. When was the film made on you?

Do you want to include it?

2. On 1978 I added a statement. Is

it correct and do you want to state that you have a gallery?

or on bibliography do you want

3. mention that your work is available with address etc?

3. When was retrospective at Fort Worth —
Do you want to make any mention of that in bio?

Thanks —

Greta.
