

THURS 6:00 AM

Hotel DURANT

2600 DURANT AVENUE • BERKELEY, CALIFORNIA 94704

Dear Laura: Just a hasty
SCRAWL!

Had dinner with dear friends last
night who are on our team of
photography - ecology - Indians etc.

Marian Van Tuyl Campbell

Dr. Douglas Gordon Campbell } Parents

Children: Bob - young aerial photographer

Bruce - Anthropology & working
in a Hopi area near Flagstaff
in a trading post run by
"Beaver" - especially crafts

Day - working with Eskimo - Indian
& deprived children - etc

Address:
160 PAVO AVE
SAN FRANCISCO -
415-731-4214

TELEPHONE (415) 845-8981

TELETYPE 415-891-9452

They live in a WUPSTER house built about 1900's.
Bob - 28 years old - had had one session at Ansel's Workshop 2 years ago - Came to show me his new color aerial photos - while I was up there - Ansel thought they were "fine".

I told Bob I thought it would be great if he could start doing aerial photographs around Santa Fe + Black Mesa + the threatened dam areas etc. His brother, Bruce, from his concern with Indians could help him on it, too.

Told him about you + your great work - and knowledge of the whole Indian story - So if you hear from him, that is who he is -

2) Bob's Mother, Marian, was a dancer + teacher. Last I

met in Beunington - 1938

His father is a Medical doctor
and psychologist - and both
of them serve on innumerable
committees, boards, etc for
social "causes" - Ecology -
sociological etc -

They are a rare wonderful
family -

I will tell Beaumont about
Bob Campbell, too - and if
just might be that he
could do some aerial shots

that would wake people
up to the pollution hazards.

Bob wants to become an
artist photographer - so it isn't
just ecology + Indian
protection. It's the whole
thing - he has two children
so he has to earn a living.
At present by being a night
pilot for a private air company.

I'm beginning to "come up for
air" after the intense workshop
experience.

Lloyd + I send our love + best
wishes - Barbara Morgan

Best to Bev.
