

Dear Miss. Gilpin,

I am writing with regards to the photographs from the Thompson collection which we went over. As I told you no one seems to have any copies of them, so I must ask if you would please make some prints for me. If it is not asking too much, I should so like three of each as my thesis must be made in three copies.

I have the section numbers and a vague description of the photo. They are:

- 3 of each
- ↓ #2794 - a tin lantern
 - #2795 - a trastero, a setting of a trastero, chair and a tin candle stick
 - #2796 - a square table with a chair and a tin box
 - ↓ #2797 - both views of Santiago (popular household saint), and Job with a retablo.

I would appreciate the various copies of these and if at all possible by the 1st of October. If this time date interferes with your plans then we can reschedule it. I will be back in Santa Fe sometime in latter September if my plans can work that way and shall contact you then. If something comes up between now and then I shall let you know.

Thank-you so very much for you help. You are a saving grace for this paper.

Sincerely,

Mrs. Jody Olsen
