Mrs. Barbara Spielman,
University of Texas Press,
Austin, Texas.

Dear Mrs. Spielman:-

I have been meaning to answer your letter of May 3 for some time, but the rush of getting my Rio Grande show ready and down to albuquerque, had me on the run.

Ofcourse I knew that it was to late to make any changes in captions; I was only bemoaning my sins of omission. As I recall, when those last color transparencies went down to you, I jotted down some quickies as identification only and then never put my mind to adequate captions. But the correction on Dr. Kluckhohn ofcourse must be made.

I have heard indirectly that both the Santa Fe Book Store and the Villagra Book have both had flyers on my book for some little time. I asked for quite a lot of them, long ago, as there are many people to whom I want to send them, all pretty sure buyers, and I want to add a note. Then there are places on the edge of the reservation whose managers will want to handle the book, though they are not book stores. I can help a lot here. And another item is that I want to prepare some sort of display for both the Gallup Ceremonial and the Window Rock Fairs and will need some for this. I know that Mr. Wardlaw is away so would you be so kind as to turn this over to whoever is in charge of this dept.? And I wonder why Luciele Webb (Tod Webb's wife' who runs the Paper Book Gallery has not received any flyers? As I seldom go downtown I havent seen what has been prepared and I am most anxious to.

I am looking for page proofs any time now and I hope soon some proofs from Meriden.

Enclosed please find a review of my Albuquerque show. As there is referance to the Navaho book perhaps you may want this on file.

With best wishes and the hope that everything is on or ahead of the present Nov. 15th date,

Sincerely
