

August 18, 1968

Mr. Frank Wardlaw,
University of Texas Press,
Austin, Texas.

Dear Frank:-

Thank you so very much for your reassuring telephone call. When I read the copy of your letter to Lucille Webb saying that you hoped to have the publication date coincide with the opening of my show in Fort Worth, I was concerned. It just didn't occur to me that you had not been informed that that date had been set for Dec. 12th. I supposed of course that Mitch had informed you when he decided on that date.

I will be sending a poster over to Window Rock for the Fair which is early this year, perhaps because of centennial activities. And I am writing to Mrs. Morris regarding a possible advertisement in the The Navajo Times, for the Fair issue if it is not too late, and perhaps again at publication time.

Tomorrow I am sending you the final page of color proofs as the Owings and I worked it out. They were very reluctant to eliminate that final picture and we hit upon what proper cropping could do to unite the two pictures. I hope you will agree. I marked this on the big sheet that went back, but perhaps you did not see it.

I am looking forward to the color corrections and the vandykes which should be along soon. With my best regards to you all, I am

Most sincerely yours,
