Dear Mrs. Spielman:-

Here is the Index. I am sorry to be late but there was so much checking to do that this couldn't be helped. I hope you will find it adequate. I tried to simplify the modifications as much as possible, and as always errors showed up at the end. Also we found a few typos; as follows

- p.7 5th line from bottom should have a comma between Choolii and Dzil.
- p.15 bottom of col 1. should read fore instead of cone.
- p. 109 capitalization of Canyons de Chelly and del Muerto. There are 4 with the de or del capitalized, and on the same page others that are right.
- p. 161 Spelling of General Carleton. I have had it wrong from the beginning. There is an "e" between l and t.

In some places we indicated picture of then gave it up when we found a number whose page nos we did not know. However this could take the place of a list of plates, but perhaps none is necessary.

I hope we have done this alright and that we have not made too much checking necessary for you.

With best wishes,

Cordially
