Dear Steve-

What is the news from the UTP? Haven't heard a word since I was in Austin. Is the second printing finished and how does it look?

I need a copy of the Navaho book immediately, and I think I had best order a shipment of four copies. At the moment I do not have one of my own and I should have at least two on hand. I enclose my check for \$42. I know I owe you for my last order. Things have been pretty slim here for several months, and if you have not already done so, you had better charge that bill to my account.

We are just emerging from a frightful cold spell. Nothing like it for some 40 odd years. It went to minus twenty degrees here for several days and even below zero during the day. Some areas near here even went to 38 and 40 below. Now it is broken and the last two days have been wonderful.

Many thanks and a good New Year,
